CCH#25

Circular Letter No. 477.

October 2, 1907.

To Superintendents.

Gentlemen:--

In accordance with the provision of the appropriation Act of 1907, graded teachers assigned to teach grades in English may be paid only five dollars per month in addition to the salary which they would otherwise receive. This provision of law supersedes the regulation of the Department in accordance with which those teachers who were authorized to teach in English during the school year 1904-05 have received an additional payment of ten dollars per month. These teachers, in common with other teachers assigned to teach in English in grades above the first, will for the present year, receive an additional payment of five dollars per month.

Respectfully,

EDWIN G. DEXTER
Commissioner of Education
